10. Mic for backing vocals (guitarist)
11. Guitar amplifier
12. Bass amplifier
13. Monitor for lead vocalist
14. Monitor for guitarist

Additional information

Lead vocalist is Victoria, the standing drummer.

Victoria DOES NOT do drum share or use a house kit, her drums can be set up off stage and put in position in FIVE minutes, much quicker than it would be to adjust a sitting down drummers kit and as she is also the lead singer she must be at the front of the stage.

Guitar goes through guitar and bass amps simultaneously

Bass amp can be DI'd or mic'd
Guitar amp will need to be mic'd
